

Developer Advocate and AI-native engineer with 12+ years shipping production systems across B2B SaaS, developer tooling, and agentic pipelines. Shipped a 9-step agentic hiring pipeline with 4 LLM reasoning agents, human-in-the-loop oversight, and 3 active users. Volunteer organiser of AgentCon Berlin 2026, partnered with Neo4j and Microsoft. Passionate about explaining AI infrastructure clearly — agentic architectures, multi-agent workflows, and operator-facing control surfaces. Previously at Apple (twice): reviewed 100K+ apps/year and contributed to internal guideline discussions — flagging rule gaps and suggesting refinements based on submission patterns. React, TypeScript, Supabase, Cloudflare Pages. B2–C1 German (in progress), Berlin-based.

PROFESSIONAL EXPERIENCE

AI Engineer & Developer Advocate — Founder • atharux2025 – Present

- Job Tracker — 9-step agentic hiring pipeline (Scout → Classifier → CV Selector → Resume Tailor → Cover Letter → Form Mapper → Screenshot → Gatekeeper → Tracker) with 4 LLM reasoning agents that reduced application friction enough to get a stuck job seeker applying consistently again. Human-in-the-loop review gate before every submission, never bypassable. 3 active users.
- NeuroFlow — A full-stack developer Learning OS showcasing adaptive curriculum paths, celestial skill-graph tracking, daily active streaks, gamified XP progression, and personal reflection indexing built in React.
- EventFlow + Venue Outreach DB — Agent-orchestrated event ops. ScrapeGraphAI venue database targeting decision-makers across 9 EU regions. Deployed as live startup POC for Hydrat3.
- AgentCon Berlin 2026 — Co-organised Berlin's first agentic AI conference at CODE University. Recruited and hosted speakers from Neo4j and Microsoft; secured partnerships with Neo4j, Microsoft, Qdrant, and MemVerge.
- Global AI Berlin — Active volunteer (event registration + audio) for one of Berlin's largest AI community meetups (120+ members). Regular presence in the local AI practitioner ecosystem.

Tech stack: React • Vite • TypeScript • Supabase • Anthropic API • Groq • Cloudflare Pages • ScrapeGraphAI • Langfuse

Fractional Director of UX Design • NDA Client (B2B SaaS Startup)May 2024

- Architected a comprehensive 30-page Figma design system using Shadcn/ui tokens.
- Delivered complete glassmorphic UI patterns and dev-ready component specs for a complex SaaS desktop application — 7 flows, full interaction states, handoff-ready.

Tech stack: Figma Design Systems • Shadcn/ui Tokens • Glassmorphism UI • Design Sprints

Co-founder & Technical Lead • Rising Tide BerlinDec 2023 – Present

- Designed and developed the brand identity, React website, and custom component library.
- Building a platform connecting artists, musicians, performers, and venue owners with event logistics providers — starting in Berlin and California, growing through partnerships.

Tech stack: Brand Strategy • React • Static Site Generation • Figma • Tailwind CSS

Marketing Developer & Campaign Strategist • Chef Works, Inc.Oct 2018 – Jan 2024

- Engineered HTML/CSS email templates and interactive landing pages, lifting open rates from 9% to 45% and generating \$150K+ in annual sales growth.
- Designed and launched a gamified shipping dashboard UI, achieving a 25% increase in fulfillment team productivity.
- Created Tableau analytics dashboards for campaign intelligence and structured GDPR-compliant database segmentation for target email automation pipelines.
- Produced multi-level customer journey maps and strategic persona frameworks across 4 distinct revenue streams.

Tech stack: HTML/CSS Templates • UX Gamification • Tableau Analytics • GDPR • Journey Mapping

UX/UI Designer & Prototyper • Volt 480Sept 2018

- Delivered a dense, interactive hardware-software mockup prototype in 2 weeks for a crucial trade show, securing subsequent phase investor funding.

Tech stack: Interactive Prototyping • Rapid Design Sprints • Client Communication • Hardware-Software Sync

Marketing PM & Web Developer • Epik TokenNov 2017 – Oct 2018

- Developed high-traffic product website and detailed technical whitepaper for high-growth blockchain startup — primary developer-facing documentation.
- Built the product web presence and pitch documentation that supported a \$2M seed capital raise.

Product Designer & UI Developer • Vinder

Sep 2017 – May 2018

- Led agile design sprints and standard design-to-development code handoff procedures.
- Designed a cohesive cross-platform component system for iOS and Android — delivered as annotated Figma specifications and Zeplin handoff for the development team.

Tech stack: Agile Sprints • Design-to-Dev Handoff • React Native • Mobile Design Systems

Technical PM & Designer • Virtual Fantasy League

Nov 2016 – Sep 2017

- Shepherded complete platform from design to release in 9 months, organizing cross-functional agile development tracks.
- Established core company-wide standard operating procedures (SOPs) for design files, user testing, and developer alignment.

Tech stack: Agile Management • SOP Development • Functional UX Design • Product Timelines

EARLIER NARRATIVE CAREER

UX Architect <i>Tandon Group</i> B2B medical + RFID sites. Work included Syrmatech — the website supported a \$250K enterprise contract win. Managed WordPress, SEO, and email workflows.	2016	iOS App Review & Developer Policy <i>Apple</i> Reviewed 100K+ apps per year against Apple developer guidelines. Contributed to internal team discussions on guideline effectiveness — flagging gaps and suggesting refinements based on submission patterns. Built internal review tooling that increased team throughput by 25%.	2010 – 2016
Asst. Store Manager <i>Shane Company</i> Record-breaking sales; top-3 store nationally. Crafted in-store customer experience design and coached live staff training.	2008 – 2010	Recruiting Manager <i>Robert Half Intl.</i> Engineered CRM campaigns, managed candidate sourcing, and conducted technical/creative talent evaluation.	2008
Design Consultant <i>Eastman Roofing</i> Led structural assessments, tailored technical draft builds, negotiated custom installation contracts.	2006 – 2007	Sr. Asst. Store Manager <i>Apple</i> Staffed and optimized 150+ employee retail locations. Tested and implemented early Apple Store design and planogram concepts.	2002 – 2006

SKILLS INVENTORY MATRIX

DESIGN & UX STRATEGY	FRONTEND ENGINEERING	BACKEND & INFRASTRUCTURE	AI & OPERATOR SYSTEMS
UX/UI Design, Design Systems, Figma Expert, Wireframing & Prototyping, Information Architecture, User Research Methodologies, WCAG Accessibility 2.2, Agentic UI Patterns	React (AI-assisted), Vite Bundler, TypeScript, JavaScript (ESNext), HTML5 / CSS3, Tailwind CSS v4, Shadcn/ui Framework, Framer Motion	Supabase (BaaS), PostgreSQL, Cloudflare Pages, Cloudflare Workers, Git & GitHub workflows, RESTful & Server API Proxy Architecture	Anthropic Claude API, Groq AI Inference, Multi-Agent Pipeline Architecture, ScrapeGraphAI, Langfuse Trace Monitoring, OpenRouter Integrations, Human-in-the-Loop Safeguards, System State Transparency

CERTIFICATIONS

- Gamification Design Certification (Octalysis Group, 2017)
- Lean Six Sigma Green Belt (Lean Wright, 2019)
- UX/UI Product Design (General Assembly SF, 2016)
- Deutsch B1.2 Working Standard (vhs Pankow, 2025)

EDUCATION

- BFA Digital Media Art • San Jose State University, CA (2005)
- A.A. Liberal Arts • De Anza College, Cupertino, CA (1999)
